PATIENT GUIDE · SPORT

Sport and performance: how to use Equistasi®

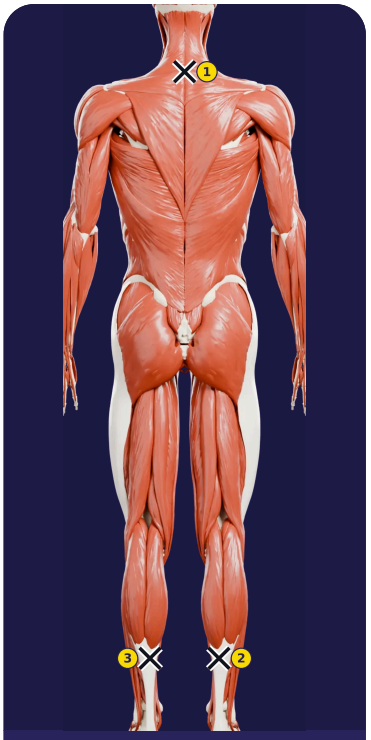

Equistasi® supports movement control and proprioception, that is the sense of your body in space. Here is how to use it before and during sport.

1 Where to apply the 3 devices

1 Seventh cervical vertebra (C7)
Place one device at the base of the neck, directly over C7: it is the most prominent vertebra when you bend your head forward.

2·3 Calves
Apply one device on each calf, preferably on the soleus muscle (lower part of the calf, above the Achilles tendon).

How to attach it: clean and dry the skin well (no creams or oils) and fix each device with the transparent patch supplied, in contact with the skin.

Back view. 1 on C7, 2 and 3 on both calves.

This information does not replace the advice of a doctor or physiotherapist. Always read the device instructions for use.

2 How long to keep it on

First day	Wear the devices **before** starting your sport, for **1–2 hours**.
Following days	Use them **during training** or during competitions.
Several sessions in one day	You can apply them several times, without exceeding **4 hours in total** per day.
Every week	No more than **5 days**, with **2 days off** so that the receptors do not get used to the stimulus. **M** **T** **W** **T** **F** S S

3 What it is for

Postural stability

It improves neuromuscular control, which also helps reduce the risk of injuries, such as those to the anterior cruciate ligament.

Performance

It optimises movement control and proprioception, essential in dynamic sports such as football and cycling.

4 With your physiotherapist

We recommend being followed by a physiotherapist or an experienced athletic trainer: they can adapt the points and times to your needs and to the sport you play.

⚠ When to remove the devices

- Remove them **earlier** if you feel **discomfort of any kind**: it passes within a few minutes after removing them.
- If you feel unwell (for example **nausea, dizziness or headache**) remove the devices immediately and try again the next day.

Find the points with the app. Scan the QR code: in the Equistasi Point app you will find anatomical plates with the application points and video tutorials.
